

PRESENTS

What is a Pi Jam?

Raspberry Jams are community events for people to come together to learn about digital making with Raspberry Pi. A Jam is a meeting of all kinds of people: some will be new and some will have plenty of experience that they are happy to share.

The Plan

This is the first Raspberry Pi Jam at Make Hack Void. There will be discussions about what Pis can do, coding with your Pi and demonstrations from experienced Pi users.

There will be a small number of Pis available as loaners on the day, so you can get a taste

for Raspberry Pi. If you have a Pi, please bring it along (including any peripherals needed).

U18s are welcome to attend, but must bring an adult with them (who is welcome to participate as well).

Cost \$10

Date 21 April 2018

Time 12-4pm

Place 17 Tucana Street, GIRALANG

Places are limited to 15 participants. To book, email Steve via crashman39@gmail.com
